COLE ASSOCIATES ADVISES AMF PRECISION ENGINEERING ON GROWTH FUNDING FROM HSBC BANK

AMF Precision Engineering, based on the Wirral is a leading sub-contract manufacturer specialising in precision engineering solutions for clients across the world. With annual turnover of £5 million and 50 employees AMF manufactures sophisticated mechanical and electronic components and systems for customers in sectors including electronics, medical systems, scientific instruments and aerospace. AMF produces a wide range of machined and fabricated metal and plastic components, sub-assemblies and full assemblies. See www.amfengineering.co.uk.

Jeremy Cole and David Middleton of Cole Associates Corporate Finance advised AMF on raising more than £2 million of debt facilities from HSBC Bank to finance the growth plans of the business.
